February 1, 2021

Dear Parent/Guardian,

Education Law requires all New York State (NYS) public school students to have a health exam when they are a new student in a school district and when they enter Pre-K or Kindergarten, and grades 1, 3, 5, 7, 9, and 11. Health examinations are also required for participation in interscholastic athletics.

Beginning on 1/31/21, schools cannot accept the health exam if it is not on the required form or the required electronic health record equivalent. This form is available on the CV-S School's Health Office website along with a letter to your healthcare provider with instructions that you may take with you.

Please take the Health Examination form and the letter for the provider with you when your child goes for their annual exam. The New York State Center for School Health has provided a list of frequently asked questions regarding this required change. This is also available for your review on the Health Office page for your reference.

Sincerely,

Maureen Kuhn, NP

School District Medical Director
